

Solar-Powered Mosquito and Insect Misting System

- 90 feet of tubing
- 20 nozzles
- Wi-Fi Smartphone-only control
- 12 gallon reservoir
- Solar panel or 110V charger
- Protects up to 2000 sq/ft from mosquitos and flying insects

110V Charger

SolaMist Mosquito and Insect Misting system provides up to 2,000 sq/ft of mosquito and flying insect protection. Using solar power (or optional 110V charging port) uses a non-toxic SolaMist Pro Concentrate™ (mixed with water) to keep your backyard area mosquito-free. Use your smart phone to set your spray times. Much more affordable option to the professionally installed backyard mosquito misting systems.
